

Never miss your dog's next treatment!

## ACTIVATE YOUR CYTOPOINT ALERTS

[www.zoetispetcare.com/  
reminders](http://www.zoetispetcare.com/reminders)

### IT'S EASY...

1. Enter the date of your dog's last CYTOPOINT® injection.
2. You can adjust your treatment schedule anytime based on your veterinarian's assessment.
3. You'll receive a reminder 7 days before your dog's next treatment.

You can choose how you'd like to receive your reminders (email, text or both) and update them according to your dog's individual treatment routine.

Remember to schedule your dog's return visit with your veterinarian to help ensure your furry friend continues to get long-lasting itch relief.
